

Distributor and wholesaler of steel pipes

For 12 years we have been a direct importer, distributor and one of the largest wholesalers of steel pipes in Poland.

We offer new and old-use steel pipes in the diameter range from \varnothing 114 to 3600 mm with a thickness from 3.6 to 36 mm.

Comprehensive implementation

In order to meet your expectations, in 2016 we have expanded our company with a steel construction plant, which allows us to comprehensively implement the most difficult orders.

CONTACT US

We are available from Monday to Friday from 8.00 to 16.00.
